## EDUCATION

### University of Notre Dame

South Bend, IN | Aug 2008 - May 2012

Bachelor of Business Administration in Marketing

## EXPERIENCE

### Visual Designer @ SnapMobile

Chicago, IL | Feb 2016 - Present

- Work with the product manager to whiteboard flows and navigation for client mobile applications.
- Develop wireframes and low-fidelity prototypes in InVision to present to clients.
- Create high-fidelity mockups of the designs in Sketch and implement designs using Ionic and SASS.
- Creating and maintaining additional pages to the company website using Bootstrap and Ruby on Rails.

### UI/UX Designer @ DESIGNATION

Chicago, IL | Aug 2015 - Jan 2016

#### Windy City Labs - UX

- Conducted exploratory research for a physics learning application, including interviews, domain analysis, and contextual inquiry.
- Synthesized findings with an empathy map and then user tested multiple prototypes.
- Delivered annotated wireframes and a high fidelity prototype for the client to take into production.

#### SugarSnap - UI

- Created high-fidelity mockups of wireframes for a physician's surgery video platform.
- Explored different styles for the client to choose from and provide feedback.
- Delivered final screens for both desktop and mobile.

### Software Implementation Consultant @ Reynolds & Reynolds

Dayton, OH | Aug 2012 - Nov 2014

- Organized and implemented large-scale software conversions for car dealerships across the country.
- Worked directly with clients to optimize user experience with new applications and provided support when issues arose.
